

Manufacturer's Certification Statement

Issued January 3rd, 2011

MI Windows and Doors, Inc., 650 West Market Street, Gratz, PA 17030, provides this Manufacturer's Certification Statement, so that you, the purchaser, can verify that certain CertainTeed windows and doors are eligible for the energy tax credits provided in the Energy Efficient Home Improvement Tax Credit for 2011.

The 2011 Tax Credit offers 10% of the cost of the home improvement up to a maximum of \$500. In order to qualify, the home improvement must be made on an existing home and principal residence. Windows can only account for \$200 of the available \$500. Windows must meet the 2010 Energy Star ratings for both the U Factor and Solar Heat Gain Coefficient, to qualify for this credit. These ratings vary based on the region of the country you are located in. Please refer to Energy Star to determine what region you are in. Home improvements must be completed by December 31, 2011, in order to qualify for the tax credit.

To claim the Energy Efficient Tax Credit, you will need to claim the tax credit on your 2011 taxes in 2012. There will be a form from the IRS to send in with your tax return.

Thermal performance criteria for the products listed in this Certification Statement have been independently tested and verified by the National Fenestration Rating Council (NFRC).

Upon examination of this statement, and to the best of my knowledge and belief, the facts presented are true, correct, and complete.

Josh Williard

Sales and Marketing Analyst

MI Windows and Doors, Inc.

IRS guidance indicates that taxpayers are not required to attach the Manufacturer's Certification Statement to their tax returns. Taxpayers should retain this Certification as part of their tax records.

MI Windows and Doors, Inc. is not a legal or tax advisor. MI Windows and Doors expressly disclaims any responsibility for determining whether a purchaser will receive the energy tax credit. MI Windows and Doors recommends that consumers consult their tax advisors and review IRS guidance prior to purchasing any window or door product. For further details on the energy tax credit, visit the IRS website at (www.irs.gov).
